

Big Ling's, Slow Kings, Chunky Halibut & High Flying Coho

Chignik Bay 2018 Review

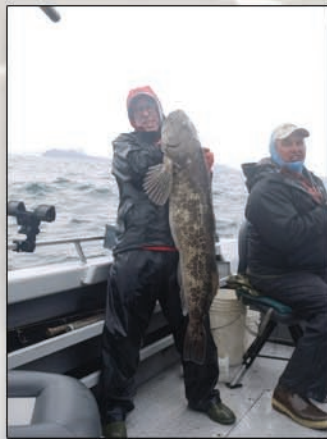

54 pound Ling Cod with Castle Cape in the background

2018 did present some challenges as the Chignik River King run was weak again. We were fortunate to have tight lines and great fishing for all our other species. We are anxious for the King's to fill our river and return to our past fishing expectations.

We had some very good days on saltwater Kings, excellent Coho in both the river and salt, and really quality, fine fishing for Ling Cod and Halibut.

Beasts from the depths kept us entertained as we hooked into good numbers of large fish.

***Aggressive Coho smashed our Herring in Saltwater
and crushed our flies and spinners in the Chignik River.***

The Hanging Rack Stayed Full

Ling's, King's, Coho's and Halibut, Great Days and Smiles!

We had a blast in 2018! Great Guests, Great Fishing, Big Fun!

Lots of Bears, Lots of Fish, Many, Many Blessings
